Summary of the proposed Order

The intent of the proposed Housing Land Supply (Goodwood) Order 2022 (the proposed Order) is to dedicate the land shown in the plan at Schedule 2 of the proposed Order as Housing Land Supply Land and rezone the land to the General Residential Zone under the Tasmanian Planning Scheme. The land is located at the intersection between Goodwood and Howard Road, Goodwood (the site has no title reference).

This will ensure that the land becomes part of the housing portfolio for the Director of Housing, enabling the land to be used for additional housing.

The area of land is 1438m².

Future development of the land is still to be planned by the Director of Housing.

How to find out further information

Further information about the proposed Order and the *Housing Land Supply Act 2018* (the HLS Act) can be found at www.planningreform.tas.gov.au.

Enquiries about the HLS Act and the proposed Order can be made to the State Planning Office on 1300 703 977.

Enquiries regarding any development that may be proposed on the land can be made to the Department of Communities Tasmania on 1800 995 653.

How to make a submission

The public are invited to make submissions in relation to the proposed Order within the exhibition period.

Submissions may be made

by email to –

yoursay.planning@dpac.tas.gov.au or

by post to –

State Planning Office
Department of Premier and Cabinet
GPO BOX 123
HOBART TAS 7001

Submissions may be made with respect to the relevant matters specified in section 13(2) of the HLS Act as follows:

- the suitability for residential use of the area of land;
- the suitability of the intended zone; or
- whether the Minister would, or would not, contravene section 5(2) or section 6(1) or (2) of the HLS Act by making a housing land supply order.

Minister's reasons to make the Housing Land Supply Order

My reasons for wanting to make a housing land supply order in the form of the proposed Order are as follows –

1. The HLS Act was a key action identified at the Housing Summit hosted by the then Premier on 15 March 2018 as a means of providing more social and affordable housing.
2. There is a clear need to make more land available under the *Homes Act 1935* to enable the provision of additional social and affordable housing in Tasmania, with over 4500 applications on the Communities Tasmania Housing Register as at October 2021.
3. The site is suitable for future development for social and affordable housing, but needs to be rezoned before the approval and construction of new homes on the land.
4. The proposed Order will provide more land zoned for residential purposes and then through the construction of homes on this land, contribute toward achieving the targets for the supply of more social and affordable homes in the Greater Hobart area, as set out in Tasmania's Affordable Housing Strategy 2015-2025.

Minister's opinion on compliance with the Housing Land Supply Act 2018

The reasons why I am of the opinion that the proposed Order may be made under the HLS Act and why I am satisfied that I would not contravene section 5(2), or section 6(1) or (2) of the HLS Act by making the proposed order are as follows –

1. The land is eligible Government land, and not more than 5 years has elapsed since the making of the HLS Act, as required by section 5(1) of the HLS Act.
2. I am satisfied that there is a need to make more land available under the *Homes Act 1935* to enable the provision of additional social and affordable housing in Greater Hobart, as required by section 5(2)(a) of the HLS Act. Currently there are over 1700 applications on the Communities Tasmania Housing Register for the Greater Hobart area as at October 2021, which are 'eligible persons' looking to find social or affordable homes.
3. I am satisfied, for the reasons detailed in the planning submission prepared by All Urban Planning Pty Ltd for the Department of Communities Tasmania, that:
 - a) the land is suitable for residential use and development by virtue of its location in the Greater Hobart metropolitan area and with close proximity to public and commercial services, public transport and places that may provide opportunities for employment, as required by section 5(2)(b) of the HLS Act;

- b) applying the General Residential Zone to the area of land would be consistent with the State Policies and the Southern Tasmania Regional Land Use Strategy 2010 – 2035 (STRLUS), as required by section 6(1)(a) of the HLS Act;
 - c) if the General Residential Zone were to apply to the land, the use or development of the land for residential purposes would not be significantly restricted by any code that would apply to the land under the Tasmanian Planning Scheme, as required by section 6(1)(b) of the HLS Act;
 - d) assigning the General Residential Zone to the land would further the objectives set out in Schedule 1 of the *Land Use Planning and Approvals Act 1993*, as required by section 6(1)(c) of the HLS Act;
 - e) after consideration of the guidelines under section 8A of the *Land Use Planning and Approvals Act 1993*, assigning the General Residential Zone would be consistent with the zone purpose in the State Planning Provisions, as required by section 6(1)(d) of the HLS Act; and
 - f) use or development of the land would not be likely to create significant land use conflict with an existing use on the land or with use or development on adjacent land or with any other land near to the land, as required by section 6(1)(f) of the HLS Act;
4. I have undertaken a preliminary consideration of the environmental, economic and social effects, and the effects on Aboriginal and cultural heritage, that assigning the General Residential Zone to the land may have, as required by section 6(1)(e) of the HLS Act. I will seek further expert advice on these matters during the public exhibition period.
 5. The General Residential Zone will apply to all of the land subject to the proposed Order and section 6(2)(b) of the HLS Act does not apply to this proposed Order.

Frequently Asked Questions

The Process in General

Why was the Housing Land Supply Act 2018 created?

The HLS Act was created in 2018 to help address housing supply issues in Hobart and around the State with respect to social and affordable housing.

The HLS Act created a process that can run more quickly than the normal planning processes to help accelerate the supply of land for social and affordable housing. Only government land is eligible for consideration under this Act.

Further information on the HLS Act and previous Orders can be found here - <https://planningreform.tas.gov.au/updates/housing-land-supply-orders> or by contacting the Department of Premier and Cabinet's State Planning Office on 1300 703 977 or stateplanning@dpac.tas.gov.au

How does the process work under the Housing Land Supply Act 2018?

The Department of Communities Tasmania identify surplus Government land that is suitable for affordable housing and prepare a report demonstrating that the site meets with the requirements of the HLS Act. The HLS Act requires that the site must be suitable for residential development and located in close proximity to public transport, business and social services.

The Department of Communities Tasmania makes a requests to the Minister Planning for a proposed Housing Land Supply Order for suitable Government land.

The Minister for Planning considers the request in accordance with the HLS Act and undertakes consultation on a proposed Order. This direct consultation with people who live or own property surrounding the site of the proposed Order and any identified interest groups or persons who may have an interest in the proposed Order.

The Minister for Planning considers any submissions received during the consultation and prepares a report to table in Parliament. Parliament gets to see all submissions that are made during the consultation.

For the Order to be considered by Parliament, it must meet the requirements set out in the HLS Act including that: a site must be eligible and suitable for residential development; is consistent with the relevant regional land use strategy; is consistent with relevant State policies; and also furthers the objectives of the *Land Use Planning and Approvals Act 1993* (which is the same level of assessment applied to rezoning applications under the normal planning processes).

Both houses of Parliament consider the Minister's report and the proposed Order and may disallow the proposed Order or allow the proposed Order to proceed.

If the proposed Order proceeds, the Minister for Planning then directs the Tasmanian Planning Commission to amend the relevant planning scheme to align with the made Order.

How can I present my views on the proposed Order?

You can lodge a written submission with the Minister for Planning during the public consultation period for the proposed Order.

The process requires the Minister for Planning to consider the written submissions with reference to the requirements set out in the HLS Act before tabling a report to Parliament.

Who will assess development proposals on the land?

The Minister for Planning does not assess future development proposals on the land once the land is rezoned.

The Department of Communities Tasmania, or someone acting on their behalf, will lodge a development application with the local Council as the planning authority. The planning authority will determine the application in accordance with the planning scheme that applies at the time.

Specific to the Housing Land Supply (Goodwood) Order 2022

What development will occur on the site?

At the time of proposing the Order, the Department of Communities Tasmania did not have a set plan for development of the land. Further information on their plans can be obtained by contacting the Department of Communities Tasmania on 1800 995 653 or email: HousingProjects@communities.tas.gov.au.

Some examples of residential development that may occur under the General Residential Zone are single dwellings, multiple dwellings, subdivision of the land or shared accommodation facilities. These are similar in nature to the development that already surrounds this land.

After the land is rezoned, the proposal for the land will be submitted to Glenorchy City Council for assessment against the provisions of the Tasmanian Planning Scheme, which consists of the State Planning Provisions and the Glenorchy Local Provisions Schedule. This follows the normal planning development application processes. The Tasmanian Planning Scheme as it applies to the Glenorchy City Council can be viewed at www.iplan.tas.gov.au.

How will the site be protected in relation to traffic noise?

The land is located adjacent to Goodwood Road which is a category 3 State road and therefore within the road or railway attenuation area as defined under clause C3.3 of the State Planning Provisions.

Future development on the land for residential use will be subject to consideration under C3.6 of the Road and Railway Assets Code of the Tasmanian Planning Scheme and in particular Clause C3.6.1 Habitable buildings for sensitive uses within a road or railway attenuation area.

Given the nature of the site, could there be any potential contamination on the site?

The site appears likely to include some fill, and there are also a number of potentially contaminating activities in the vicinity of the site including underground storage tanks at the Elwick Racecourse and Derwent Barracks. The Department of Communities engaged Geo Environmental Solutions to prepare an Environmental Site Assessment to assess the potential for contamination of the site. The report provided based on the assessment including soil sampling indicated there are no potential contamination risks at the site. The report recommends measures to prevent contamination from future development.
